

Shiner Heritage Quilters

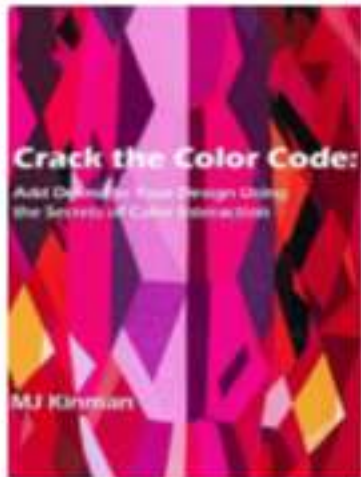

present MJ Kinman

Lit from Within / Lights! Camera! Action!

Saturday, July 18, 2026

First United Methodist Church, Shiner TX

Josef Albers, the great artist/educator of the 20th Century, acknowledged how tricky colors can be. In his words, “Colors deceive continuously.” As artists, how do we navigate this world of deception? Luckily, by using a few simple rules, we can predict how color will try to deceive us and thereby increase our color confidence.

In this hands-on class, MJ Kinman, maker of giant gem quilts, will introduce you to the four rules of color interaction and show you how to apply them to your own quilt design to create dramatic effects – regardless of your subject matter. For example, using strips and squares of solid fabric, MJ will show you how to:

- Add sparkle to your quilts.
- Create dramatic focal points.
- Add exciting visual movement.
- Add metallic effects (without using metallic fabric or thread)

Then see these concepts come to life when you piece MJ’s easy “En Pointe” freezer paper pattern. MJ’s class is based on her new book, “Crack the Color Code: Add Drama to Your Designs Using the Magic of Color Interaction”, available in class and on her website.
